## NORTHERN LIGHTS TOURS IN HORNAFJÖRÐUR

HÓTEL HÖFN

## Welcome to south east Iceland To explore the northern lights in realm of europs largest glacier “Vatnajökull”

Höfn is a lively fishing town at the southeast coast of Iceland with around 1800 inhabitants. The town is quite young, with the first inhabitants moving there in 1897. Fishing is the main industry in the town, but tourism is growing steadily. Höfn is known as the Lobster town of Iceland, so it's ideal to visit for a taste of this delicacy! The first week-end in July every year a Lobster festival is held in Höfn bringing the whole family together for a great time. Everybody is welcome to join in the fun! Höfn has all the services a visitor might need, supermarkets, an outdoor swimming pool, hotels, campground, sport center and a variety of activities. There you will find a “must see” Glacier exhibition, Ís-Land, where you can touch, feel, smell and experience the glacier while learning about this great force of nature. A tourist information office is in Höfn, where the staff will be glad to help you make the most of your stay. Höfn is in the realm of Vatnajökull glacier and from there you have a panoramic view to the glacier as well as to the Atlantic ocean.
